

Project title : ANASAO - Diagnostic study of the cashew nut sector in Guinea-Bissau

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Guinea-Bissau	3 000 €	Cashew nut sector expertise	SOFRECO - Société Française de Réalisation, d'Etudes et de Conseil	January 2017 - March 2017

Project's goals and results

Main goals

Provide project team with technical expertise on the cashew nut sector

Specific objectives

- Design benchmarks and case study
- Prices/market systems expertise
- General technical revision of the study's deliverables (diagnostic report and final report)

Beneficiaries

Actors of the cashew sector in Guinea-Bissau

Results

- R1.** Production of 4 benchmarking studies
- R2.** Production of a cashew nut global/import/export market analysis
- R3.** Provide cashew exporters' contact details
- R4.** Custom technical and/or methodological support (hotline) for the team
- R5.** Production of technical comments for diagnostic report improvement
- R6.** Production of technical comments for strategic report improvement

Activities

- A1.** Regional benchmarking of cashew nut production issues
- A2.** Benchmarking post-harvest processing techniques
- A3.** Benchmarking of West-African and – if relevant – other value chains' organization
- A4.** Benchmarking and outlook for cashew nut price mechanisms and evolution at sub-regional and global levels
- A5.** Cashew nut global/import/export market analysis
- A6.** Technical support for drafting diagnostic and strategic reports
