

Project title : BIZCOOP - Analysis of profitability and access to agroforestry for cocoa growers of the Ecookim federation of cooperatives

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Côte d'Ivoire	30 000 €	Agroforestry, market, financing expertise	ECOOKIM, IDH - The Sustainable Trade Initiative, FOA	March 2022 - September 2022

Project's goals and results

Main goals

Analyze the activities to be financed to promote the transition to agroforestry of cocoa growers who are members of Ecookim cooperatives

Specific objectives

SO1. Assess the effectiveness of actions already taken by Ecookim to promote agroforestry among its members (production and distribution of agroforestry trees by the FOA partner)

SO2. Analyze the economic profitability of agroforestry systems promoted to producers

SO3. Recommend additional actions to be financed with Ecookim to strengthen the transition to agroforestry

SO4. Evaluate the financial feasibility of a loan from Ecookim to finance the actions identified
