Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Sierra Leone	25 000 €	Evauation expertise	Woord en Daad	June 2023 - September 2023

Project's goals and results

Main goals

The mission aims to evaluate the project "Cashing in on Cashew". The project aims to create "an economically viable and self-sustaining cashew value chain in Sierra Leone by increasing trade volumes and productivity, generating income and jobs for cashew smallholders and exporters".

The mission will mainly focus on the impact and relevance of the project and reflect on driving factors that contribute(d) to the realized outcomes. Conclusions regarding relevance, effectiveness and sustainability of the project interventions will be drawn so as the lessons learned, successes and failures

Specific objectives

SO1. Provide insight on the relevance, efficiency, effectiveness, impact and sustainability of the project interventions, from its start until the end of project

SO2. Determine the cost effectiveness of the project and the overall achievements taking into consideration item 1 above

SO3. Provide, based on these findings, concrete and well-substantiated recommendations to all partners to ensure sustainability of project results after the end of the project

SO4. Provide lessons learned and best practices that will be useful for similar projects in future for the same sector
