

Project title : CASHMOZ - Development of an Investment Profile on Cashew sector in Mozambique

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Mozambique	9 000 €	Market analysis expertise	ITC - International Trade Centre, China Council for the Promotion of International Trade, DFID - Department for International Development UK, APIEX - Investment and Exports Promotion Agency of Mozambique, China Development Bank	February 2020 - May 2020

Project's goals and results

Main goals

The work will conduct country, sector and value chain analyses of the cashew sector in order to identify solid investment opportunities/leads for foreign investors. These analyses will be packaged in the form of a sector-specific investment profile that will be used by Mozambique's Agency for Promotion of Investment and Exports (APIEX), to promote and attract investments in Mozambique's cashew sector

Specific objectives

Beneficiaries

- Mozambique's Agency for Promotion of Investment and Exports (APIEX)
- Partnership for Investment and Growth in Africa (PIGA)

Results

Activities

A1. Undertake detailed research on existing literature on the country analysis to identify favourable factors that highlight Mozambique as a solid investment destination

A2. Undertake detailed research on existing literature to conduct an assessment of the cashew value chain

A3. Identify most relevant stakeholders to interview. These include key sector players from the public and private sectors as well as relevant public sector agencies and sector associations among others

A4. Using the analysis above, develop recommendations for most bankable investment opportunities for the cashew sector. These should clearly be derived from the analysis and provide potential foreign investors with clear and precise ideas for investments

A5. Based on the analysis and the recommendations, produce a draft report capturing the country analysis, value chain analysis and the recommendations for very precise investment opportunities

A6. Produce a summary of the report which will be used as a brochure for potential investors
