

Project title : CASHOIL - Business plan and investment project for the construction of a Cashew Nut Shell Liquid (CNSL) extraction plant in Côte d'Ivoire

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Côte d'Ivoire	10 000 €		CONFIDENTIAL, Fúnteni Facilities and Consulting	December 2022 - January 2023

Project's goals and results

Main goals

This study will provide a better understanding of the distribution of current cashew shell deposits, current operator investments and the feasibility of a CNSL extraction plant

Specific objectives

SO1. Inventory of cashew nut processing and CNSL extraction projects in Côte d'Ivoire and selection of the preferred location of the industrial site

SO2. Design of a business plan and simulations with different scenarios to project the cost and financial performance indicators of a CNSL extraction plant

SO3. Finalization of the business plan according to the assumptions validated by the client and production of an investment project presentation to facilitate fundraising
