

Project title : ERPD MOZ - Support to the Government of Mozambique for the drafting of the Emission Reduction Program Zambezia REDD + Jurisdictional Program (ZILMP)

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Mozambique	280 000 USD	Coordination	Ministère de la Terre, de l'Environnement et du Développement Rural (MITADER) (Mozambique), The World Bank	November 2016 - January 2018

Project's goals and results

Main goals

The Government of Mozambique has launched its first REDD + jurisdictional program in northern Zambezia: the ZILMP program. It plans to reduce deforestation by nearly 30% in 9 districts on more than 4 million hectares. The Government wishes to be able to value these efforts to reduce deforestation through the sale of carbon credit to the Forest Carbon Partnership Facility (FCPF) managed by the World Bank. The acceptance of this program by the FCPF must open to a purchase of \$ 50 million of carbon credits generated.

Specific objectives

Accompany the Mozambique government through the entire process of writing and submitting the ERPD (Emission Reduction Program Document) of its REDD + ZILMP program to access the FCPF.

Beneficiaries

The Ministry of Land, Environment and Rural Development (MITADER), and in particular the National Fund for Sustainable Development (FNDS)

Results

** R1. ** FCPF Acceptance of an ERPD for the ZILMP Program** R2. ** Submission of a benefit sharing plan for the ZILMP program

Activities

** A1. ** Conduct a legal study on how to transfer carbon offsets in Mozambique

** A2. ** Conduct a land tenure survey in the ZILMP program area

** A3. ** Construct the carbon baseline in the program area

** A4. ** Provide a technical assistant within Zambezie's sustainable development platform to coordinate activities to combat deforestation

** A5. ** Write the ERPD, participate in the assessment missions of the document and support the presentation of the document on the board of the FCPF
