

Project title : EVALITTO - Strategic Environmental and Social Assessment of an Integrated Coastal Development and Management Program

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Côte d'Ivoire		Environmental evaluation expertise	Agreco, The World Bank	November 2021 - February 2022

Project's goals and results

Main goals

Strategic Environmental and Social Assessment (SESA) of the Ivorian Coastal Development and Integrated Management Plan (PAGIL) which is part of the West African Coastal Management Program (WACA) of the World Bank which aims to provide to the Ivorian coastal zone a spatial reference tool for socio-environmental and sustainable management

Specific objectives

The West Africa Coastal Areas Program (WACA) was designed to respond to this growing need for regional integration. It is a mobilization body through which technical and financial partners can contribute to the sustainable development of the coast, with the fight against erosion and coastal flooding as an angle of attack.
