

## Project title : FAIRSAHEL - Mid-term evaluation of CIRAD's FAIR Sahel project on agroecological intensification for the resilience of farms in the Sahel

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Burkina Faso, Mali, Senegal	25 000 €	Evaluation expertise	CIRAD - Agricultural Research for Development, Altai Consulting, EU - European Union, AFD - French Development Agency	February 2023 - April 2023

### Project's goals and results

#### Main goals

The Fair Sahel project, coordinated by CIRAD, is implemented by a consortium of 13 research and development partners in three countries: Burkina-Faso, Mali and Senegal. It is financed to the tune of 7 million euros by the European Union, 1.5 million by AFD and financed by CIRAD and IRD for 0.5 million euros. It started in January 2020 for 4 years.

The FAIR Sahel project is:

- A participatory approach to develop solutions that meet the constraints of producers
- A reflection on the agroecological levers that can be mobilized in the Sahel to optimize the efficiency and adaptation of agricultural production (sustainable soil management, functional plant biodiversity, optimization of agriculture-livestock interactions)
- A multi-level intervention to cover issues related to agroecology transition at the scale of the plot, communities and territories
- A project at the interface of research and development to promote the design and distribution of innovative systems

#### Specific objectives

The objective of our intervention is to assess the level of progress of the activities since the start of the project, the adequacy of the intervention in relation to the theory of change, to identify the critical points and to propose readjustments for improve the achievement of objectives
