

## Project title : FAISAIRES - Realize the feasibility study for the design of a project to strengthen the Management of Protected Areas in Côte d'Ivoire

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Côte d'Ivoire	14 000 €	Conservation expertise	BRL Ingénierie, AFD - French Development Agency, Ministry of Environment and Sustainable Development (MINEDD)	April 2022 - September 2022

### Project's goals and results

#### Main goals

Study the feasibility of the design and budgeting (design of activities and financing plan) of land development activities and riparian measures in the outskirts of the "Mabi-Yaya Nature Reserve" and the "Haut Bandama Fauna and Flora Reserve" for a 22 million euro project from AFD and the Ministry of Environment and Sustainable Development of Côte d'Ivoire

#### Specific objectives

**SO1.** Carry out an analysis of the socio-economic context and the issues surrounding the protected areas of Mabi-Yaya and Haut-Bandama

**SO2.** Identify community and local development activities that can be supported by the project while evaluating investment financing and capital contribution from the Endowment Fund for Protected Areas, the Foundation for Parks and Reserves in Côte d'Ivoire (FPRCI)

**SO3.** Participate in the drafting of the feasibility study
