

## Project title : GUINATIC - Contribution to the Technical Assistance Project at the Ministry of Agriculture on Innovation in Agricultural Advisory

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Guinea	20 000 €	Expertise TIC	ANPROCA - Agence Nationale de la Promotion Rurale et du Conseil Agricole, EGIS	February 2019 - April 2019

### Project's goals and results

#### Main goals

Our experts contribute to the technical assistance by missions of expertise on the support of the change of the ANPROCA relating to the challenges:

- Institutional and organizational policies of ANPROCA as part of an innovation system
- Renewing the methodological and conceptual approach of agricultural advice to family farms in a context of multiple transitions in agriculture
- Modernization of agricultural advisory practices in a context of digitization of services

#### Specific objectives

- Definition of the methodological orientations of the agricultural advisory approach in relation to available, relevant and adapted information technologies
- The organization and holding of a hackathon oriented towards innovative IT solutions for agriculture
