

Project title : MODELAC - Actualisation des modèles économiques de la transformation de l'anacarde en Côte d'Ivoire

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Côte d'Ivoire	6 000 €	Cashew Expert	BNETD - Bureau National d'Etudes Techniques et de Développement, Département Economie Finances et Industrialisation (DEFI) de la Côte d'Ivoire, CCA - Conseil Coton Anacarde	July 2021 - September 2021

Project's goals and results

Main goals

After the 2013 study that led to the law on cashew nut reform in the Ivory Coast, the objective of this work is the update of the economic models of processing in light of the evolution of international market, competition, processing methods and opportunities in the national context

Specific objectives

S01. Provide market assumptions for the update of cashew nut processing economic models

S02. Carry out an international benchmark of processing costs

S03. Propose methods for the valorization of by-products
