Project's goals and results

Main goals

Promote the development and dissemination in several languages and several countries of a collection of booklets of proposals, a kind of small book gathering, in each of the areas of global governance, proposals that have seemed most relevant to implement the ruptures and mutations necessary for the construction of a new global governance, fairer and more sustainable. Work on the development of the new Proposal Papers was undertaken as part of a Forum for a New Global Governance.

Specific objectives

Write 4 proposals for a new global governance on the following topics: Agrofuels / Global Trade / Medicines / Central Asia
