

Project title : TRACASHEW - Traceability in the African cashew value chains

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Burkina Faso, Côte d'Ivoire, Ghana, Tanzania	51 750 €	Traceability and value chain expertise	GIZ, Le Basic	November 2025 - July 2026

Project's goals and results

Main goals

Contribute to collective learning within the cashew sector on the topic of traceability and to help identify the actions to be taken by the various stakeholders in the value chain, as well as within the framework of the MOVE-ComCashew project

Specific objectives

SO1. To provide an overview of existing traceability systems in the cashew nut sector

SO2. Identify, describe and compare the traceability technologies and service providers used in the sector

SO3. Draw lessons from experience and make recommendations for the implementation of a reliable traceability system within the cashew nut supply chain
