

Project title : VALBICUI - Technical support for the design of an energy recovery project for agricultural by-products in Côte d'Ivoire

Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Côte d'Ivoire	11 000 €	Biomass recovery expertise	BDA-ENABEL - Belgian Development Agency, EU - European Union	January 2023 - March 2023

Project's goals and results

Main goals

As part of the "low carbon" and "sustainable cocoa" Team Europe Initiative led by the Delegation of the European Union in Côte d'Ivoire, ENABEL is in charge of supporting and strengthening **the recovery of organic waste issued from the agricultural products processing**. ENABEL is therefore seeking to formulate a project on this, called VALBICUI, "Energy recovery of agricultural by-products". In order to support the formulation of this project, ENABEL wanted to call on Nitidæ to identify and prioritize the development initiatives with the most potential in Côte d'Ivoire

Specific objectives

SO1. Meetings, bibliography, field mission, interviews and data collection on the biomass waste sector in Ivorian industries (location, availability, logistics, heat capacity, cost...)

SO2. Analysis and drafting of a final report including recommendations for the project strategy to be designed
