Project place	Project cost	Role in the project	Technical and financial sponsors	Dates
Côte d'Ivoire	6000 €	Market expertise	Natural Resources Institute - NRI, EU - European Union	February 2023 - March 2023

Project's goals and results

Main goals

Nitidæ is engaged in the VCA4D study on cashew in Côte d'Ivoire to perform the market analysis of the cashew value chain. The market analysis note will focussing on: **supply** (presentation of the products; main regional/worldwide producers and exporters; productions trends; main producers in the country); **demand** (main trends in the international, regional, domestic markets; main export targets of the country; market barriers and SPS measures; imports trends and origin); **markets** (market prices – national, regional and international; opportunities)

Specific objectives

SO1. International and regional (West Africa) trends in cashew markets
SO2. Positioning of Cote d'Ivoire in international and regional markets (trends and potential)
SO3. Main markets and barriers to access, in particular to the EU (e.g. sanitary and phytosanitary measures, zero deforestation regulation, etc)
